TAX INSURANCE

Tax law is often unclear. Certa provides certainty to taxpayers through the security of a bespoke tax insurance policy.

Policy periods of up to

10 years

Cover for single specific tax risks of over

£100m

Offices in London, Barcelona and Hamburg providing

Worldwide coverage

What is tax insurance?

- Insurance to cover the risk of an unexpected specific tax liability arising
- Typically used in a M&A transaction to manage parties' exposure
- Also used in other situations such as reorganisations and refinancing
- Covers lower probability risks where potential downside is material

How tax insurance can help you

Tax insurance has been used to:

- Take issues off the negotiating table
- Replace the need for a tax ruling
- Release funds from escrow
- Protect a liquidator
- Cover uncertainties on group restructurings
- Allow investment funds to wind up

How much does it cost?

Depending on the nature of the risk, the premium is a one-off payment typically in the range of 1.5% to 5% of the limit purchased.

CONTINGENT RISK INSURANCE

Certa can write contingent risks on a global basis, for risk limits up to **£25m**. Contingent risks are identified, non-tax technical risks (such as a competition law or regulatory), which may arise in a M&A deal or other circumstances. Certa can provide insurance to back up the legal analysis received.
